

[#OurTownOurArt](#)

Haverhill Town Council (HTC) embarked on this project as part of its aim to make our town a nicer and more pleasant place to live in, work and visit. Haverhill town centre, like many in the UK, has been affected by the Covid-19 pandemic and the sight of empty shop units can be depressing. Whilst HTC may have no control over what rent landlords charge or the nationally-set business rates, we resolved to do what we can within our remit. Our out-door art exhibition not only covers up empty shop units, it brings a bit of brightness back and sends a signal to existing and prospective businesses that whilst High Streets are evolving, commerce still has an important role in Haverhill Town centre.

We received a tremendous response to our call-out to local artists to send in their work, which shows that a lot of people care too. Almost 70 individual artists' works were chosen, including both professionals and amateurs and demonstrating a wide variety of artforms from painting to photography and carpentry to quilting. Contributors range from aged 5 to 90! Thank you to each and every one and Haverhill's Stylize Graphics for their expertise in delivering the project.

Mayor John Burns says "Thank you to all our generous artists for allowing their work to be used free of charge. They are testament to the creativity and community spirit of our town. The town council and all those involved hope our High Street gallery will brighten your day that and provide a little light relief in these difficult times."
